

Project: The Capitol Building
Client: United States Government
Project Cost: \$4,100,000

The United States Capitol in Washington, D.C., is among the most architecturally impressive and symbolically important buildings in the world. It has housed the meeting chambers of the Senate and the House of Representatives for almost two centuries. Begun in 1793, the Capitol has been built, burnt, rebuilt, extended, and restored; today, it stands as a monument not only to its builders but also to the American people and their government.

Project: Longworth House Office Building
Client: United States Government
Project Cost: \$2,550,000

Completed in the spring of 1933, the Longworth House Office Building is the second of three office buildings constructed for the United States House of Representatives as well as a fine example of the Neo-Classical Revival style popular in the second quarter of the twentieth century. It occupies a site south of the Capitol bounded by Independence Avenue, New Jersey Avenue, C Street S.E., and South Capitol Street.

Project: Cannon House Office Building
Client: United States Government
Project Cost: \$2,150,000

The Cannon House Office Building, completed in 1908, is the oldest congressional office building as well as a significant example of the Beaux Arts style of architecture. It occupies a site south of the Capitol bounded by Independence Avenue, First Street, New Jersey Avenue, and C Street.
